SKILLS

Languages & Tools: Python, SQL (MySQL, PostgreSQL), Power BI, DAX, R, Excel, Tableau

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, TensorFlow, PyTorch

Machine Learning Models: Regression (Linear, Logistic), Decision Trees, K-Means, PCA, KNN, Neural Networks

Certifications: Data Analyst (*DataCamp, 2025*), Data Analysis with Power BI (*DataCamp, 2025*), Data Analysis with Python (*DataCamp, 2025*), SQL Specialist (*Global Tech Experience, 2023*)

EXPERIENCE

Phoenix Rising FC - Ticket Sales Analytics Special Project

February 2026 - March 2026

Phoenix Rising FC

Phoenix, AZ

- Processed and transformed ticket sales data using **SQL (CTEs, joins, window functions)** and **Python (Pandas)**, facilitating accurate cumulative sales pacing analysis for 2025
- Engineered an interactive **Power BI dashboard** comparing 2025 sales vs 2026 goals with pacing benchmarks (21/14/7 days out), enabling stakeholders to strengthen ticket sales strategy
- Analyzed ticket purchasing behavior patterns to identify late-buying trends, informing targeted marketing and promotional strategies for the 2026 season
- Evaluated 2026 sales targets: **88%** aligned with historical trends; **58%** of games required stronger pacing, highlighting areas for optimized sales strategy

Texans Analytics Mentorship Program

October 2025

Houston Texans - Strength in Numbers

Houston, TX

- Collaborated with a 5-member team to analyze **8,000+ NFL plays** from 2024 (Weeks 10–14), uncovering key offensive performance trends
- Extracted and assessed play-level data in **Python (Pandas)** to identify drivers of explosive plays and offensive efficiency
- Defined explosive plays using yardage and EPA thresholds, identifying **600 explosive plays** and isolating key offensive tendencies for coaching analysis
- Constructed a **Power BI dashboard** visualizing weekly team performance and explosive play metrics aiding front-office analysis
- Presented findings to Houston Texans staff, directly supporting data-driven decision-making for team strategy and planning

Data Analyst Intern

January 2024 – May 2024

Arizona State University

Tempe, AZ

- Architected an **ETL pipeline** to consolidate data from over **100 Excel files** using **Python (Pandas)**
- Developed an interactive **Excel dashboard** to visualize insights and statistics for **26** players, enhancing coaching staff's ability to track development and make informed decisions
- Coordinated with coaching staff to identify important metrics and refine data presentation based on feedback

PROJECTS

NBA Player Stats Dashboard | *Power BI, DAX, Power Query, Python (Pandas), Excel*

- Developed a **multi-page Power BI dashboard** analyzing **5,300+ NBA players** across **70+ seasons**, featuring **KPI cards**, dynamic filters, and drill-through visuals for career and season-level performance
- Built interactive **line and stacked column charts** using **DAX** and **Power Query** to compare scoring, rebounding, and assist patterns across careers
- Engineered player search and filtering functionality using **DAX measures**, improving dynamic comparison of career stats (**PPG, APG, RPG**) across seasons
- Integrated **navigation buttons** to link between dashboard pages, refining user experience and interactivity
- Streamlined an automated **data pipeline** in **Power Query** and **Python (Pandas)** to clean and reshape raw stats data, ensuring dashboard accuracy

EDUCATION

Texas A&M University

Master of Science in Data Science

College Station, TX

Graduation: Dec. 2025

- GPA:** 3.8/4.0

Arizona State University

Bachelor of Science in Mathematics (Statistics)

Tempe, AZ

Graduation: May 2024

- GPA:** 3.9/4.0 (*summa cum laude*)
